## HOUSE COAL

Our Group A & C house coal are hot burning natural fuels – low in ash and free burning. Currently both fuels are of Colombian origin as the source is well known for its quality and consistency.

**Group A** is the larger of the two with pieces ranging in size from 2"-6"

**£21 per 50kg / £11.50 per 25kg**

**Group C** is the smaller with pieces averaging around 2"

**£19 per 50kg / £10.50 per 25kg**

Both are suitable to burn on open fires and can be mixed with logs.

## NON-APPROVED SMOKELESS FUEL

**Oxbow Red** is our best selling fuel and is currently a Non-Approved Smokeless fuel.

**£19 per 50kg / £10.50 per 25kg**

Described as a "Duck Egg" in shape, this man made fuel is a long lasting alternative to traditional house coal. It can be used on open fires and certain multi fuel stoves & appliances.

## APPROVED SMOKELESS FUEL

**Oxbow Excel** is our best selling Approved Smokeless fuel.

**£23 per 50kg / £12.50 per 25kg**

More square in shape than Oxbow Red & New Heat, Excel has been approved as a smokeless fuel by DEFRA and is authorised to be used in smoke controlled areas such as Harrogate. It is also HETAS approved to be used on multi fuel stoves, open fires and closed appliances.

**Oxbow - New Heat** is alternative man made fuel to Red & Excel.

**£22 per 50kg / £12 per 25kg**

Similar in shape to Red, New Heat was originally designed to be used on multi fuel stoves and closed appliances, but it has been adapted over the last couple of years so that it can be used on open fires too. Just like Excel, New Heat is both DEFRA and HETAS authorised to be used in Smokeless zones as well as authorised to be used on multi fuel stoves, open fires and closed appliances.

**Stovesse / Anthracite** is a naturally smokeless fuel known as "Black Diamond".

**£23 per 50kg / £12.50 per 25kg**

Also known as Boiler Fuel/ Nuts, this natural alternative to the man made smokeless fuels is currently sourced from Wales. It is recommended for use on multi fuel stoves and closed appliances as well as range cookers such as Aga's and Rayburn's.

**Anthracite Grains** another naturally smokeless fuel known as "Black Diamond".

**£19 per 50kg**

Originating from Welsh mines like the Stovesse, Grains are only recommended to be used on gravity fed heating boilers.

## LOGS & KINDLING

We offer a range of seasoned and kiln dried hardwood logs for both local delivery and collection from our yard. All of our firewood products are responsibly sourced and accredited under the Woodsure "Ready to Burn" scheme by DEFRA.

**Seasoned Hardwood** Our seasoned hardwood logs are a mixture of birch, beech and ash.

**Kiln Dried Hardwood** Our kiln dried logs are mainly ash, the best available in terms of heat output, calorific value and burns longer than other species! They are ideal for use in pizza ovens, chimineas and fire pits as well as on multi fuel stoves and open fires.

Both our seasoned and kiln dried hardwood logs are available to buy in nets, barrow bags or bulk bags – loose loads can be arranged on request.

**Hotmax Heatlog's** Sold in 20kg sealed bags, Hotmax is a high density, natural saw dust log which is made from compacted, natural and recycled wood dust – a waste product in the manufacture of horse bedding! They can be used on open fires, multi fuel and wood burning stoves as well as on chimineas, fire pits etc. and generate very high levels of heat very quickly. Please note the bags need to be stored in a dry area.

**£8 per 20kg OR 4 for £30**

**Kindling** Produced by ourselves, our softwood kindling is a perfect for getting your fire started.

**£4.50 per net OR 3 for £12**

**Firelighters** Our Fireglow firelighters are quick to react as well as long lasting and come in boxes of a 24 piece block which can be snapped off into strips or cubes.

**£1 per box OR 6 for £5**
